STATISTICS FROM CYBERTECH SINGAPORE 2016

CYBERTECH CONFERENCE AND EXHIBITION

As the digital world is quickly infiltrating all aspects of our everyday lives, we are all vulnerable. The Internet of Things, vehicle-to-vehicle (V2V) communication, medical devices, the smart home and wearable computing are only a few of the fields with which the cyber industry will have to protect in the coming years.

Singapore and the entire region are at the forefront of global cyber solutions. From developments in fintech, critical infrastructure, energy and big data, Asia is leading the way for technological innovation.

To this end, we are proud to present Cybertech Asia 2018, the International Conference & Exhibition taking place April 25-26th in Singapore.

The annual global event will bring together leaders of the cyber industry and government decision makers from around the world. Cybertech will present commercial problem solving strategies and solutions that meet the diverse challenges for a wide range of sectors: finance, defense, transportation, utilities, R&D, energy, manufacturing, service sectors, health, government, telecommunications, and more.

What does Cybertech Conference and Exhibition have to offer?

Cybertech will provide attendants with an unique opportunity to become acquainted with the latest innovations and solutions from the international cyber community. The conference will serve as an incredible 'B2B Zone' with a focus on networking, strengthening existing alliances, and forming new ones.

The Exclusive Cybertech Start-Up Pavilion:

The exhibition will host a unique Start-Up Pavilion, where hundreds of innovative & cutting edge start-ups will display the latest technological and cyber advancements from the "Start-Up Nation".

The conference and exhibition will bring some of the most powerful players in the economy together with industry-leaders and decision-makers of the cyber world. Cybertech is the foremost platform for bringing together multi-national companies, exciting start-ups, private & corporate investors, venture capital firms, government officials, and the cyber technology client.

For more information, please visit our website at asia.cybertechconference.com or contact us at cyber@cybertechsingapore.com.

See you at Cybertech Asia 2018, April 25-26th in Singapore!
